CONTENTS OF VOLUME 221

No. 1 *February* 1972

PAGE

Site of action of 2-deoxy-D-glucose mediating gastric secretion in the cat. By MASSAKO KADEKARO, C. TIMO-IARIA, L. E. R. VALLE and L. P. E. VELHA 1

Intracellular pH, H ion flux and H ion permeability coefficient in bullfrog toe muscle. By K. T. IZUTSU 15

The metabolic basis to the fluid pump in the cornea. By S. DICKSTEIN and D. M. MAURICE 29

The location of the fluid pump in the cornea. By D. M. MAURICE 43

Relationships between blood flow and secretion in the isolated perfused canine pancreas. By DANIÈLE AUGIER, J. P. BOUCARD, J. P. PASCAL, A. RIBET and NICOLE VAYSSE 55

Degeneration of sympathetic nerves *in vitro* and development of smooth muscle supersensitivity to noradrenaline. By L. B. GEFFEN and CHRIS C. HUGHES 71

The action of insulin on brown adipose tissue *in vivo*. By M. J. HARDMAN and D. HULL 85

Influence of adaptation level on response pattern and sensitivity of ganglion cells in the cat's retina. By MYONGGEUN YOON . . 93

The effect of diameter on the electrical constants of frog skeletal muscle fibres. By A. L. HODGKIN and S. NAKAJIMA 105

Analysis of the membrane capacity in frog muscle. By A. L. HODGKIN and S. NAKAJIMA 121

Electrical stimulation of the human eye in different adaptational states. By R. H. S. CARPENTER 137

The role of post-synaptic neurones in the biochemical maturation of presynaptic cholinergic nerve terminals in a mouse sympathetic ganglion. By I. B. BLACK, I. A. HENDRY and L. L. IVERSEN 149

Resting tension and the form of the twitch of rat skeletal muscle at low temperature. By D. K. HILL 161

Proximal negative response in the pigeon retina. By A. L. HOLDEN 173

PAGE

Modifications of dorsal horn cell activities in the spinal cord, after intra-arterial injection of bradykinin. By J. M. Besson, C. Conseiller, K.-F. Hamann and Marie-Claude Maillard . . 189

A study of frog muscle maintained in organ culture. By A. J. Harris and R. Miledi 207

The effect of real and simulated time-zone shifts upon the circadian rhythms of body temperature, plasma 11-hydroxycorticosteroids, and renal excretion in human subjects. By Ann L. Elliott, J. N. Mills, D. S. Minors and J. M. Waterhouse . 227

No. 2 *March* 1972

The reflex cardiovascular depression caused by occlusion of the coronary sinus in the dog. By M. F. Muers and P. Sleight . 259

Action potentials from ventricular mechanoreceptors stimulated by occlusion of the coronary sinus in the dog. By M. F. Muers and P. Sleight 283

The transport of L-leucine in human erythrocytes: a new kinetic analysis. By D. G. Hoare 311

The temperature dependence of the transport of L-leucine in human erythrocytes. By D. G. Hoare 331

On the physiological response of the cerebral cortex to acute stress (reversible asphyxia). By L. Z. Bito and R. E. Myers . 349

Accumulation and apparent active transport of prostaglandins by some rabbit tissues *in vitro*. By L. Z. Bito 371

An investigation of sodium transport in barnacle muscle fibres by means of the microsyringe technique. By E. Edward Bittar, Stephen Chen, Bo. G. Danielson, Henrik A. Hartman and Edmund Y. Tong 389

The mechanism of adenosine diphosphate induced platelet aggregation: binding to platelet receptors and inhibition of binding and aggregation by prostaglandin E_1. By D. J. Boullin, A. R. Green and K. S. Price 415

The effects of vasopressin on the diuretic response to left atrial distension. By J. R. Ledsome and J. M. Mason 427

PAGE

Changes during eating in oxygen consumption, cardiac function and body fluids of sheep. By R. J. CHRISTOPHERSON and A. J. F. WEBSTER 441

Active secretion of thyroxine into bile: the role of tissue thyroxine-binding sites. By A. P. HILLIER 459

Autoregulation of thyroxine secretion into bile. By A. P. HILLIER 471

Differences in sensitivity to vasoconstrictor drugs within the wall of the sheep carotid artery. By J. M. GRAHAM and W. R. KEATINGE 477

Control of ACh sensitivity by muscle activity in the rat. By T. LØMO and JEAN ROSENTHAL 493

No. 3 *March* 1972

Membrane potentials recorded from the mucosa of the toad's tongue during chemical stimulation. By C. EYZAGUIRRE, S. FIDONE and P. ZAPATA 515

The interaction at equilibrium between tetrodotoxin and mammalian non-myelinated nerve fibres. By D. COLQUHOUN and J. M. RITCHIE 533

Characteristics of spinal neurones responding to cutaneous myelinated and unmyelinated fibres. By M. GREGOR and M. ZIMMERMAN 555

Some properties of the presynaptic nerve terminals in a mammalian sympathetic ganglion. By Y. DUNANT 577

Coronary vasodilator responses to hypoxia before and after aminophylline. By S. AFONSO, T. J. ANSFIELD, T. B. BERNDT and G. C. ROWE 589

Modification of the evoked release of noradrenaline from the perfused cat spleen by various ions and agents. By S. M. KIRPEKAR, J. C. PRAT, MARGARITA PUIG and A. R. WAKADE 601

Transport of potassium at the blood–brain barrier. By M. W. B. BRADBURY, M. B. SEGAL and JANET WILSON 617

The effects of calcium and magnesium on sodium fluxes through gills of *Carassius auratus*, L. By A. W. CUTHBERT and J. MAETZ 633

PAGE

Peritubular pH and transtubular potentials in isolated perfused cortical collecting ducts of rabbit kidney. By R. J. Douglas and L. C. Isaacson 645

An electrophysiological analysis of the storage of acetylcholine in preganglionic nerve terminals. By M. R. Bennett and Elspeth M. McLachlan 657

An electrophysiological analysis of the synthesis of acetylcholine in preganglionic nerve terminals. By M. R. Bennett and Elspeth M. McLachlan 669

Studies of antidromically identified neurosecretory cells of the hypothalamus by intracellular and extracellular recordings. By Kiyomi Koizumi and H. Yamashita 683

Intestinal absorption rate of L-methionine in man and the effect of glucose in the perfusing fluid. By G. C. Cook 707

Excitation and inhibition of motoneurones in the tortoise. By M. E. Rosenberg 715

Transcapillary fluid movement in human calf after drinking hypertonic saline. By I. Matsubara 731

Inhibition of denervation changes in skeletal muscle by blockers of protein synthesis. By W. Grampp, J. B. Harris and S. Thesleff 743

The effect of external anions on steady-state chloride exchange across ascites tumour cells. By Felice Aull 755

DEMONSTRATIONS

PAGE

Block, M. T. & Morrissey, Shelagh. The measurement of electrical properties in isolated frog gastric mucosa 1*P*

Nelms, J. D. & Turk, J. A self-regulating method for rapid acclimatization to heat 2*P*

Hudson, D. G. The effect of prostaglandin E_1 and E_2 on isolated frog intestine . 3*P*

Gibbs, D. F., Grainger, G. & Rogers. A. F. An electromagnetic flowmeter . . 4*P*

COMMUNICATIONS

Burton, Angela M. & Forsling, Mary L. Hormone content of the neurohypophysis in foetal, new-born and adult guinea-pigs 6*P*

Goodwin, G. M., McCloskey, D. I. & Matthews, P. B. C. A systematic distortion of position sense produced by muscle vibration 8*P*

McIlwain, H. & Pull, I. Release of adenine derivatives on electrical stimulation of superfused tissues from the brain 9*P*

Baker, G. F. & Widdas, W. F. A glucose derivative which enters the human red cell by simple diffusion 10*P*

Duff, G. W., Luff, R. H. & Rawlins, M. D. Observations on the transmitter function of noradrenaline in the central control of body temperature in the rabbit . 12*P*

Shirley, D. G. Compensatory renal growth in the new-born rat 13*P*

Morrissey, Shelagh & Stephens, D. N. The role of the posterior hypothalamus in gastric acid secretion 14*P*

Kidd, G. L., Kučera, J. & Vaillant, C. H. The susceptibility of muscle spindles to intra-arterial and external applications of solutions of KCl 15*P*

O'Donnell, J. M. & Smith, M. W. Uptake of calcium and magnesium by the duodenum of the rat 16*P*

Purser, D. & Whitfield, I. C. W-shaped excitatory/inhibitory response curves from the medial geniculate nucleus of the unanaesthetized intact cat 17*P*

Fettiplace, R., Haydon, D. A. & the late C. D. Knowles. The action of lysine vasopressin on artificial lipid bilayers 18*P*

Lewis, A. F. The application of an allometric growth law to the peripheral nervous system 20*P*

Daniel, P. M., Love, E. R., Moorhouse, S. R., Pratt, O. E. & Wilson, Penelope. The movement of ketone bodies, glucose, pyruvate and lactate between the blood and the brain of rats 22*P*

Holmes, O. & Howard, L. Unitary and mass evoked potentials in the secondary sensory area of the cat 23*P*

Forrester, T. A quantitative estimation of adenosine triphosphate released from human forearm muscle during sustained exercise 25*P*

Beesley, P., Emson, P. C. & Kerkut, G. A. Change in K_m of insect ChE after behavioural training 26*P*

Barer, Gwenda R., Edwards, C. & Jolly, Angela I. Changes in the ventilatory response to hypoxia and in carotid body size in chronically hypoxic rats . 27*P*
